

GREEN PLEAT

1", 2" & 4"
MERV 13

Ideal for use in

- Commercial/Industrial
- Schools/Universities
- Hospitals/Health Care Facilities

WHY A GREEN PLEAT?

- Advanced, dual-component, synthetic air media
- Charged fibers immediately trap contaminants
- Resulting dust cake enhances traditional filtration
- Promotes high filtration during entire life-cycle

- High efficiency filtration in compact depth
 - Low resistance to air flow
 - Reduced energy costs
 - Eliminates need to retrofit to achieve high MERV efficiency
 - Provides points toward LEED certification
 - Keeps coils and ductwork much cleaner
 - Quickly traps pollen, allergens & contaminants

INITIAL RESISTANCE (24 X 24)

EFFICIENCY PER ASHRAE 52.2 (24 X 24 X 2)

GREEN PLEAT ENGINEERING SPECIFICATIONS

1.0 General

- 1.1 Filters shall be Aerostar® MERV 13 Green Pleat extended surface pleated air filters as manufactured by Filtration Group.
- 1.2 Filters shall be available in depths of 1", 2", and 4".
- 1.3 Underwriters Laboratories classified to UL 900.
- 1.4 Filters are manufactured by an ISO 9001 registered company.

2.0 Filter Material of Construction

- 2.1 Media shall be 100% synthetic media that does not support microbial growth.
- 2.2 Frame shall be a heavy-duty, high strength, moisture resistant paperboard with cross member design that increases filter rigidity and prevents breaching. Frame shall be made with 100% recycled paperboard with an average of 35% post-consumer content. Frame shall be recyclable.
- 2.3 Filters shall have a 100% post-consumer recycled expanded metal support grid bonded to the air-exiting side of the filter to maintain pleat uniformity and prevent fluttering. Metal support grid shall be recyclable.

3.0 Filter Performance

- 3.1 Filters shall be MERV 13 when tested in accordance with ASHRAE 52.2-2012 Test Standard.
- 3.2 For initial pressure drop of filters, see Performance Data chart above.
- 3.3 Filter shall be rated to withstand a continuous operating temperature up to 150°F.
- 3.4 Filters shall have a recommended final resistance of 1.0" w.g.

Green Pleat is LEED compliant for efficiency and utilizes a 100% recycled paperboard frame.

MERV 13 filter in a compact design that installs into existing units with no retrofitting required.

Industrial grade frame and advanced synthetic media assure filter performance during the entire life-cycle.
